

BioZone[®] Air Purifier Mini PowerZone (MPZ) Series

Cleaner Air Healthier Life

Powerful & Mobile

Suitable for heavily contaminated area
Made by robust material and easily moved

Timer

Allow users to set the treatment time

Versatile Applications

Suitable for quick or long term air treatment

BioZone® Air Purification Technology: PhotoPlasma™

PhotoPlasma™ is generated by airborne molecules such as oxygen and water vapour under the exposure of the specialized UV spectrum. It includes reactive oxygen species, free radicals, electrons, etc., which actively capture various air contaminants, and rapidly destroy their structures through a chain of reactions. In this way the contaminants are decomposed and converted into harmless end-products like carbon dioxide and water.

Applications

Heavily contaminated areas

Refuse Collection Centres

Washrooms

Smoking Lounges

Temporary air polluted areas

Hotel Guestrooms

Newly-Renovated Sites

Product Installation

Performance

Eliminate up to:

99.48%

Airborne Bacteria

99.99%

Surface Bacteria

95.13%

TVOCs

100%

Formaldehyde

* Samples and tests were taken by third-party accredited laboratories.

Nominal Specifications

Model	MPZ-II
Size (mm):	531(L) x 132(W) x 102(H)
Weight (kg):	2.7
Power Input:	110-240VAC, 50-60Hz
Power Consumption (W):	<100
Lamp Life:	1 year

Specification and design are subject to change without notice.
